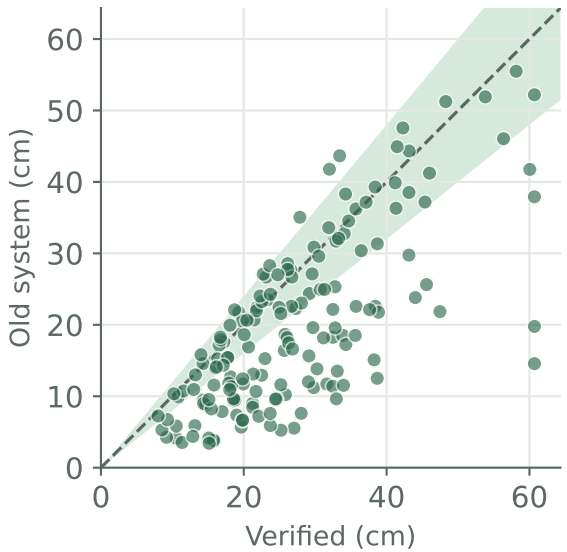
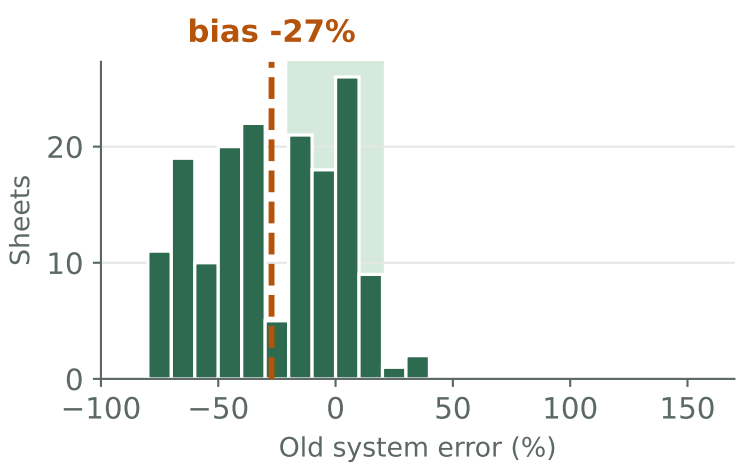
Old system vs verified measurements

SIMULATED EXAMPLE · not measured data

Panicle length

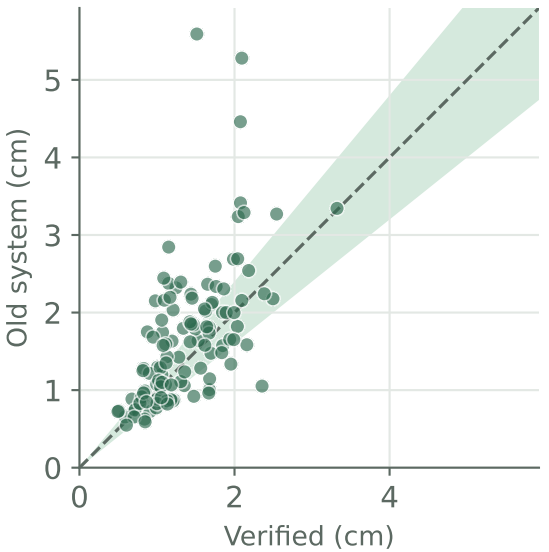
164 of 200 measured · 45% within ±20%

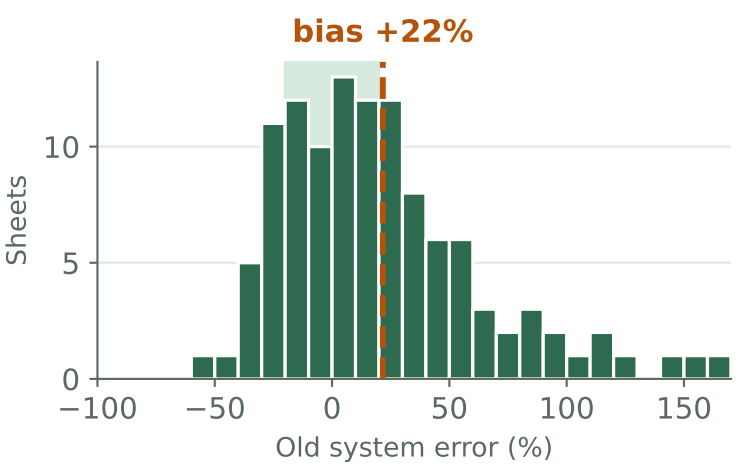




Leaf width

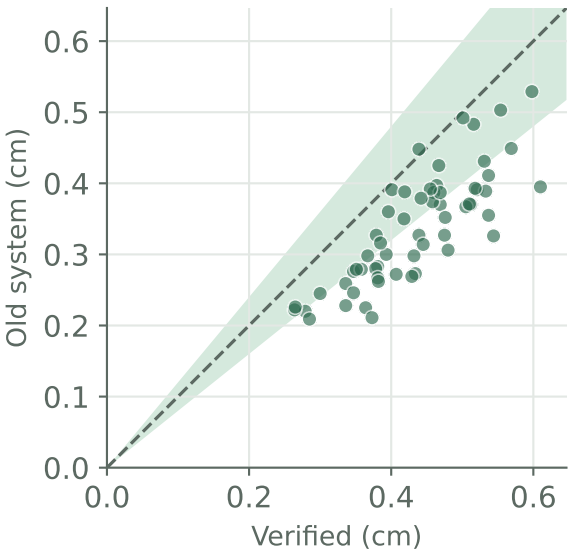
114 of 200 measured · 41% within ±20%

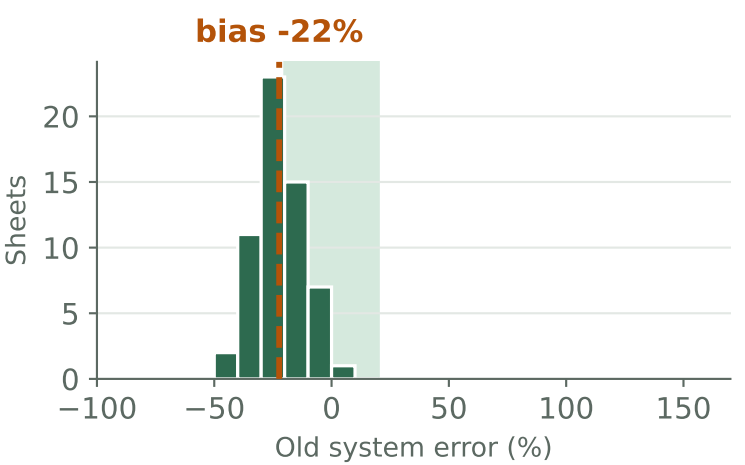




Seed length

59 of 200 measured · 39% within ±20%





Shaded band: within ±20% of the verified value · dashed line: perfect agreement · orange line: average error
